SAFETY RECALL 03514

September 2003

Dear International Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. International has decided the air tank plumbing of certain 4000 Series models built 8/27/2002 through 7/22/2003 with side-by-side, outside frame rail air tanks is not compliant to Federal Motor Vehicle Safety Standard (FMVSS) 121 Section 5.7.1 and may pose a risk to motor vehicle safety. The vehicle identified on the enclosed card fits this description and our records show that you own this vehicle. Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

REASON FOR THIS RECALL

The 5/8" green and orange air hoses between the brake treadle valve and primary and secondary air tanks were possibly routed incorrectly.

RISK TO MOTOR VEHICLE SAFETY:

If a failure of the primary air circuit occurs with the incorrect hose plumbing, depressing the brake pedal will not engage the brake chambers and possibly cause a motor vehicle crash without warning, possibly resulting in property damage, personal injury, or death.

ACTION YOU SHOULD TAKE

1. Our records show that you are the owner of the vehicle identified on the enclosed card. If you are not the owner, please read paragraph number 4.
2. Please contact your local International dealer, with your recall card in hand, to schedule an appointment to have your vehicle repaired. **All vehicles involved in this recall must be inspected. Vehicles requiring a repair will be fixed as required.**

Dealers will have parts and instructions to make the inspection and repair by 9/30/2003. This inspection will be performed without charge to you and will take approximately 20 minutes. If required, the repair will be performed without charge to you and will take approximately 1 hour. Have your dealer verify and correct your address, if necessary.

If your local International dealer performs the repair, they will submit a warranty claim; therefore, you **DO NOT** have to mail in the campaign card.

3. If the vehicle will not or cannot be corrected, please mark on the enclosed card under "CHECK ONE", the box which best describes why the vehicle will not be repaired, and return the postage-prepaid card to us.
4. In the event you do not own the vehicle described on the card, please complete the card, fill in the new customer name and address if known, and return it to us. This information will allow us to update our records so we can contact the new owner and you will not be contacted again regarding this recall.

IF YOU NEED ASSISTANCE

If you take your vehicle to your International dealer on a mutually agreed upon service date, and the dealer does not remedy this condition without charge on that date or within five days, you can obtain assistance by following the procedure described in the Owner Assistance Guide section in your Owner's Manual or by calling toll free 1-800-448-7825.

You may also wish to submit a complaint to the Administrator, National Highway Traffic Safety Administration, 400 Seventh Street, S.W., Washington, D.C., 20590, or call the toll-free Auto Safety Hot-Line at 1-888-327-4236 if your International dealer fails to repair or is unable to remedy this condition without charge or within a reasonable time.

We request your prompt attention to the correction of this defect and apologize for any inconvenience this may cause you.
